Networth Matrimony ??? Client Status Summary

Date: October 23, 2026
Branch: `main` (commit `f3a04d5`)
Platform: End-to-end feature complete

??? What Is Done

Area	Status	Details
Auth & Onboarding	Complete	OTP via MSG91, rotating JWT sessions, lockout, account setup fee (??? 15 + 18% GST)
Profile & Master Data	Complete	CRUD, photo upload (direct to Cloudflare R2), biodata import (PDF/text ??? auto-fill), visibility toggle
Discovery & Search	Complete	Locked cards, cursor pagination, temp filters/sort, member previews
Payments & Unlocks	Complete	Razorpay checkout (WebView), webhook idempotency, pre-expiry push reminder
Trust & Safety	Complete	Blocking, reporting, account deletion with 6-month retention then anonymisation, admin moderation queue
KYC / Verification	Complete	Contracts, service, controller
Notifications	Complete	In-app list, FCM push (HTTP v1, RS256 service account), unlock reminder sweep
Admin API	Complete	RBAC (21 permissions), audit log, TOTP MFA, enrichment tooling, moderation queue
Admin Dashboard	Complete	Next.js 16.4.2 + React 19, password + TOTP login, all guarded routes
Member App (Expo 57)	Complete	Auth, discovery, checkout, setup fee, profile, photos, notifications, For You tab (feature-flagged)

Automated tests: 888 passing (582 API + 29 Admin + 257 Shared + 20 Mobile) across 57 suites
Gates: Typecheck ??? ??? Lint ??? ??? Build ??? ??? Full verify ???

???? Client Answers Recorded

#	Decision	Your Answer
1	Storage	Cloudflare R2 fully (you noted "they have India database")
2	AI recommendations	Go with recommendation
3	AI recommendations	Go with recommendation
4	Photo types	Bride/groom only ??? no family photo
5	Net-worth boundaries	**Go with recommendation** ??? a value exactly on a boundary (????2 Cr, ???5 Cr, ???10 Cr) goes **into the higher band** (build already does this)
6	Refunds	No refund to buyer
7	AI recommendations	Go with recommendation
8	AI recommendations	Go with recommendation
9	SMS provider	MSG91 (done)
10	AI recommendations	Go with recommendation
11	AI recommendations	Go with recommendation
12	AI recommendations	Go with recommendation
GAP-11 wording	**Go with India** ??? accept R2 best-effort Asia-Pacific, word Privacy Policy accordingly	
GAP-12 email	**Use MSG91** ??? transactional email also via MSG91	

??? All Client Clarifications Resolved

All open items are now closed:

- **GAP-2 (net-worth boundaries)** ??? higher band (build already implements this)

- **GAP-11 (storage residency)** ??? accept R2 best-effort Asia-Pacific, word Privacy Policy accordingly
- **GAP-12 (email provider)** ??? use MSG91 for transactional email

---

???? Remaining Engineering Work (No Client Decision Needed)

Task	Blocker
Device-level QA (Expo dev build on real devices)	Store identifiers (`bundleIdentifier` / Android `package`)
Live provider checks	Razorpay webhook secret, FCM project, MSG91 credentials not yet set in env
Flip `FEATURE_AI_RECOMMENDATIONS` on	Awaiting your gradual-rollout decision (For You tab is already shipped behind the flag)

???? Source Files for Reference

All source-of-truth files are in the repository under `docs/client/` :

- `client-answers-2026-10-15.md` ??? your answers in a table
- `clarifications-needed.md` ??? current open items (now all closed)
- `client-questions-2026-10-15.html` ??? original questions with recommendations
